Press Release

KEMPF acquires Jansen Hydrauliek and HYMAC

Frankfurt am Main, December 2024 Fahrzeugbau KEMPF Holding GmbH (KEMPF), a portfolio company of Borromin Capital Fund IV, has announced the acquisition of Jansen Hydrauliek Service B.V. and HYMAC B.V. (JHS) on 20th December 2024 as part of its strategy to grow the business both organically and through the acquisition of attractive add-on businesses. JHS is a manufacturer of trailers for lorries with a strong expertise in vehicle-related hydraulics, truck-mounted cranes and tipper installations. The company was founded in 1994 and operates in Dongen and Oss, The Netherlands. The terms and conditions of the transaction have not been disclosed.

Viktor Strauch, Partner of Borromin: “The acquisition of JHS represents an attractive addition to KEMPF and not only broadens the business activities both in terms of product range and customer base but also strengthens KEMPF’s position in the Dutch market. With JHS’s self-developed control system, HYDRIVE, KEMPF will be able to offer their customers another premium product.”

Daniel Dreßler, Managing Director of KEMPF: “I have known the company and owner, Ad Jansen, for many years. We have cooperated since 2005 and I am very pleased to welcome Ad and his team to our group. With JHS we will be able to offer our customers a wider range of high quality products and expand our network in the Netherlands. Furthermore, we have a competent service provider on site.”

KEMPF

Founded in 1950 by Walter Kempf, KEMPF is a leading manufacturer of customised lorry semi-trailers with tilt mechanisms. KEMPF’s products are used for special applications in the areas of construction, agriculture, recycling and special logistics and are known in the market for their superior quality. The company supports its customers with tailor-made solutions for various transport requirements such as dump trucks and trailers, tipping semi-trailers, beverage semi-trailers, sliding floor systems as well as a large number of special vehicles. Its substantial know-how and its development of intelligent vehicle concepts has positioned KEMPF as a leading supplier not only in Germany but also throughout Europe.

JANSEN HYDRAULIEK-SERVICE

JHS was founded in 1994 by Ad Jansen and has since evolved into a well-known manufacturer of vehicle-related hydraulics and trailers and is also a dealer of KEMPF tippers in the Dutch market. Additionally, JHS has developed HYDRIVE, an independent radio-controlled system enabling the remote operation of trucks. The company is headquartered in Dongen (The Netherlands) and offers its clients comprehensive services including engineering, bodywork construction, painting, maintenance, inspections, and on-site service.

BORROMIN

Borromin is an independent private equity investor focusing on medium-sized businesses within German speaking Europe and the Benelux countries. Funds advised by Borromin invest in mid-size companies providing equity for succession cases, management buy-outs and corporate carve-out situations. Borromin was founded in 2001 and follows a successful, value-oriented strategy of investments in profitable companies.

Borromin Capital Fund IV (Borromin Capital Fund IV SCS, SICAV-RAIF) benefits from the financial backing of the European Union under the European Fund for Strategic Investments (EFSI) set up under the Investment Plan for Europe. The purpose of EFSI is to help support financing and implementing productive investments in the European Union and to ensure increased access to financing.
